

THE DEAR FOUNDATION

Where do we stand in the Israel – Palestine conflict?

Statement, 2 March 2016

- We clearly support the State of Israel and all Jews and Palestinians to live on the territory in accordance with International law.
- We are active in humanitarian projects in Israel and Palestine. Humanity is guiding our activities regardless of nationality, religion or ethnic belonging. We support human beings in need and poverty indifferent whether it concerns Jews, Muslims or Christians.
- We support projects that strengthen the peaceful coexistence between any group of human beings through education and example.
- We consider it to be a human and religious duty to treat everybody equal, on eyelevel and with respect.
- We are not affiliated to any political party or movement.
- We clearly oppose the double standard of Justice within Israel and the region applied upon Jews or Arabs for the same offences.
- We condemn violence on any side.

Amos Oz's statement on the funeral of the late Shimon Peres is guiding our work:

'Peace is not only possible. It is essential, because we have nowhere to go from here, and the Palestinians also have nowhere to go from here. There is no alternative to dividing this house into two apartments and to turn it into a two-family house.'
